

OAKWORKS DTPM300 TABLES C-ARM

SKU: MP14854

Categories: [Digital X-Ray](#)

Description

OAKWORKS® DTPM300 C-arm Imaging Pain Management Table is our most cost effective table solution (costs less than most refurbished C-arm tables) is ideal for pain treatment centers, surgical centers, and other multi-disciplinary medical facilities. The dual tower lift design, compatible with all major C-arms, allows easy patient access with safe boarding from any part of the table. The polycarbonate top provides excellent imaging quality. The 23" of manual longitudinal travel top allows for fingertip control of patient positioning. You get all these features plus self-leveling, a centralized cable management system and table top pad.
