

# HITACHI ECHELON 1.5T

SKU: MP14871

Categories: [Close MRI](#)

## Description

Hitachi's Echelon 1.5T is a premiere value in MRI. A reliable imaging tool, Echelon delivers excellent image quality and RF fat saturation with workflow advantages in patient setup, motion compensation, and image processing. With the short-bore gantry and small footprint, Echelon offers a simple solution for customer's upgrading or replacing equipment.

A staple of performance in many imaging centers, Echelon has established a long track record of operational reliability along with patient comfort and safety.
