

SIEMENS 1.5T MAGNETOM AVANTO 32X8CH

SKU: MP14890

Categories: [Close MRI](#)

Description

The refurbished Siemens MAGNETOM Avanto 1.5T MRI system is a whole body scanner, featuring the Tim (Total Imaging Matrix) RF system with 8 available independent RF receiver channels. Additionally, the Avanto 1.5T MRI introduced a nearly complete redesign of the Siemens MRI machines with a new magnet, new gradients with acoustic noise reduction, a new radio-frequency system with multi-channel options, and a new RF coil concept (Tim).

The Tim concept allows you to combine elements from physically separate coils without patient repositioning or coil changes, for shorter exams and greater patient comfort.
