

Hologic QDR 4500 Bone Densitometers

SKU: MP15280

Categories: [DEXA Bone Densitometer](#)

Description

The QDR 4500 delivers high performance image quality. It also will provide you with accurate bone density measurements at a low patient dose. This machine has a user friendly system that guides the user through each step of the exam. The user can use just one single click to access quality control, patient data entry, scan acquisition and analysis, generate reports, archive data and more.
