

Huggies new dry large diapers 5s

SKU: MP19295

Categories: [Wipes](#)

Description

Huggies Dry diapers keeps your baby's skin drier and healthier with an Airfresh cover, double leak barriers and the trusted leakage protection of the quick lock system. Mothers believe that ensuring no harmful side effects is especially important when taking care of baby's skin. As it is 1/3 thinner than an adult's, baby's skin is more delicate, thus deserves the most natural care and protection from the risk of skin irritation. So, there are few things that you should know about the new Huggies Dry:

Cloth-like Airfresh cover Allows air to flow in and out of the diaper and keeps baby's skin fresh

Quick Lock System to help stop leaks: Quick Dry Layer quickly pulls fluid away from baby's skin. Spreads fluid throughout the pad. Locks fluid into absorbent core to keep baby's skin dry

Blue Speed Dry Layer pulls in wetness instantly and keeps baby's skin dry.
