

# Osiris 2 Transport Ventilator

SKU: MP21505

Categories: [Ventilators](#)

## Description

Osiris 2 transport ventilator is light and easy to use. It is highly shock-resistant in all conditions, with 10-hours battery life allows healthcare staff to stay on the go. Robust and easy to use, Osiris is recommended by many medical teams. A full range to meet different requirements

- Spirometry measurement
- Light and easy-to-use portable ventilators
- Proven robustness: highly shock-resistant, to be used in all conditions
- Long battery life: 10 hours continuous operation

Controlled Mechanical Ventilation or Assist Controlled Mechanical Ventilation with integrated PEEP with: - either pure oxygen - or an air/oxygen mixture OSIRIS 2 Spontaneous Ventilation with Pressure Support and PEEP, which may be applied non-invasively using a mask; this being done in a controlled pressure safety mode. Minimum respiratory rate setting that guarantees adequate ventilation, even if spontaneous patient respiration stops. Product Features

- Tidal volume 100 to 1500 mL
- Respiratory rate 6 to 40 c/min
- PEEP 0 to 15 cmH<sub>2</sub>O
- Inspiratory trigger 0.5 to - 4 cmH<sub>2</sub>O
- I:E ratio 1: 3 to 1:1
- FiO<sub>2</sub> 100% or air/O<sub>2</sub> mixture
- CMV-ACMV mode with 100% O<sub>2</sub>
- CMV-ACMV mode with air/O<sub>2</sub> mixture OSIRIS 2
- Pressure Support 5 to 40 cmH<sub>2</sub>O
- PS - PEEP mode with air/O<sub>2</sub> mixture
- Warranty and services provided anywhere in India
