

# Philips Holter Monitoring DigiTrak XT Holter System

SKU: MP21913

Categories: [Portable ECG Devices](#)

## Description

The Philips DigiTrak XT Holter Monitor is among the lightest and smallest 24 hour and 48 hours ambulatory electrocardiograph (Holter) monitors available. With 24 holter recording capability, the DigiTrak XT will meet the Holter recording needs of any user. In addition, this recorder includes EASI lead placement and lead connection readings on the screen. Lightest weight monitor. Excellent unit for all patients, especially pediatric patients. Provides three channels EASI full 12 lead ECG analysis using only 5 electrodes This is more comfortable for patients and provides less artifact. Provides full three channels at a sampling rate of 175 bits/second. DigiTrak provides full disclosure, data is not compressed and all the beats are recorded and available for analysis. All recorders have pacemaker capability. Enhanced water resistance to protect your investment. Recordings provide ECG preview on screen before patient leaves the office. This assures you of a good hook up, less artifact and fewer lost channels. Additional features and benefits of the Philips DigiTrak XT include, but are not limited to, the following:

- Lightweight at only 2.2 ounces
- Small and convenient for going about daily routines
- Moisture and shock resistant
- Up to 24 hours of recording
- Runs for 24 hours on one AAA battery
- Fast memory downloading
- Detects pacemakers
- Waveform gain control
- Noiseless hook-up every time
- Lead map on the DigiTrak screen
- EASI lead placement
- Compatible with Zymed 1810 and 2010 Plus software
- Electrodes blink to indicate quality of ECG contact

## Functional:

- Channels: 3
- Resolution: 10 bits

- Gain Setting: 0.5X, 1X, 2X
- Recording Time: 24 hours
- Recording: Full disclosure
- Download Interface: USB via Dual Docking Station
- Sampling Rate: 175 samples per second
- Frequency Response: 0.05Hz to 60 Hz @ -3dB
- Signal Verification: Large LCD with lead map
- Pacemaker Detection: Programmable ON/OFF with adjustable threshold
- Compression: None
- Security: ECG encryption
- Each unit comes with a two-year manufacturer warranty.
