

# GE LOGIQ-e BT12 Portable Ultrasound

SKU: MP22581

Categories: [Mobile](#)

## Description

GE LOGIQ-e BT12 Portable Ultrasound The GE LOGIQ\* e's imaging engine delivers crisp images in a compact package. Point-of-care-specific software and transducers help to see the needle to administer a block or perform an aspiration quickly, even in an obese patient. When productivity matters, you can control the console from the transducer – potentially eliminating the need to have a second person assist. Anatomy-specific presets and the ability to display only the functions you need means you can focus on the patient rather than the control panel. It's durable and compact for easy portability yet features a large, user-friendly, high-res color display. Product Details

- 15" LCD
- Versatile and shared-services with CW Doppler
- CrossXBeam compound imaging (as option)
- SRI Speckle Reduction imaging (as option)
- Excellent for MSK, orthopedic, vascular, venous, nerve block, point of care, OB/GYN, Cardiac, Vascular, needle guided injections, and much more
- Includes full set of applications and calculations
- Great for Sports Medicine
- Coded Harmonic Imaging
- Trackball allows for easier measurements than trackpad systems
- 2D, M-Mode
- PW/CW/Color/Power Doppler

Used for:

- Abdominal, Cardiology Obstetrics, Gynecology, Musculoskeletal, Vascular, Urological, Small Parts and Superficial, Pediatric and Neonatal, Intraoperative
- Tissue Harmonics, Easy 3D, DICOM, Anatomic M-Mode, LOGIQView, CrossXbeam, TDI
- Auto Tissue Optimization, Stress Echo, TEE Option, B-Steer+, Auto IMT, ECG
- 2 PROBES:
- 3S-RS Cardiac Sector - New
- 12L-RS Vascular Linear – New
