

Direct Radiography Panel / DR Panel

SKU: MP23121

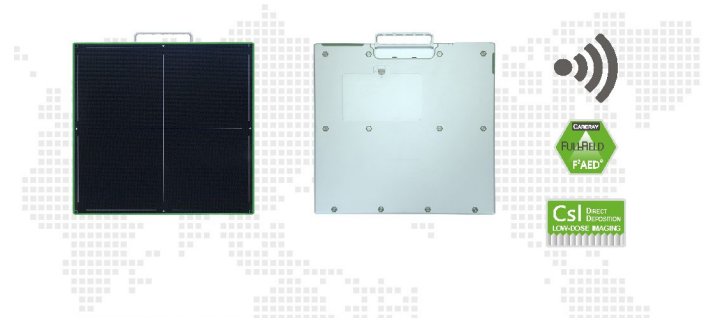

Categories: [Uncategorized](#)

Short Description:

CareView® 1800 Cw

17"x 17" Cassette-sized Wireless Detector

Friendly Operation Experience

- 17"x17" cassette-sized wireless detector; easily fits into standard bucky tray cabinets for upgrading a film or CR system to a flat-panel DR system.
- No wiring to generator with patented Full-Field Automatic Exposure Detection (F²AED[™]) Technology.
- Wireless acquisition and transfer of a full resolution radiography image in ~4 sec with 802.11n interface and dual-bands (2.4/5GHz) at 300Mbps data transmission rate.

Good Image Quality

- The great performance Csl direct-deposition technology on new generation of TFT/PIN PD panel and low noise electronics.

"Care about you" Design Philosophy

- Extra long battery life with 1400 shots/charge (10 sec interval between shots) and 7 hours stand-by time.
- Light weight and slim design with built-in foldable handle; rubber insulated frame and high strength aluminum-alloy case ensure safe and convenient operations.

14"x 17" Cassette-sized Wireless Detector

Friendly Operation Experience

14"x17" cassette-sized wireless detector; easily fits into standard bucky tray cabinets for upgrading a film or CR system to a flat-panel DR system.

No wiring to the generator with patented Full-Field Automatic Exposure Detection (F AED) Technology.

Wireless acquisition and transfer of a full resolution radiography image in ~4 sec with 802.11n interface and dual-bands (2.4/5GHz) at 300Mbps data transmission rate

Good Image Quality

The great performance CsI direct-deposition technology on new generation of TFT/PIN PD panel and low noise electronics.

"Care about you"

Design Philosophy Extra-long battery life with 1400 shots/charge (10-sec interval between shots) and 7 hours standby time.

Lightweight and slim design with built-in foldable handle; rubber insulated frame and high strength aluminum-alloy case ensure safe and convenient operations.

Direct radiography panel is a medical imaging equipment that has a lightweight and slim design with built-in foldable handle.

Description

[1500Cw](#)

DR (Direct Radiography) Panel,

CareView® panels are efficient and easy to use, designed with human health and comfort in mind. Our digital FPDs (Flat Panel Detectors) utilize advanced in-house technology to produce crystal clear images at astonishingly low doses

Care View 1500 Cw,

Direct-deposit CsI (Cesium iodide) provides low dose care with exceptional image quality.

F2AED® (Full-field AED) technology for easy subject positioning

1-Shot Calibration® for fast initialization.

Rapid image acquisition.

Easy to connect panels with magnetic ports.

In Innovative embedded foldable handle for convenient portability.

Quickly switch between wired and wireless modes.

Automatic data recovery in the event of a WiFi signal loss. Never lose a shot!
