

SAFECATH Silicone Foley Catheter (P)

SKU: MP23583

Categories: [Dialysis Catheter](#)

Description

- Highly transparent that the characteristics of the urine and the catheter itself can be viewed at a glance.
- Smooth tapered tip to facilitate easy insertion into urethra.
- Has large lumen and allows more efficient withdrawal of urine than any latex catheter of comparable outside diameter.
- Made up of soft clear silicone material that does not stress the urethral mucosa and has excellent water repellence and no adhesiveness qualities. It is slippery when wet.
