

Tynor Knee Cap with Rigid Hinge Support and Normal Flexion - Large

SKU: MP25929

Categories: [Knee Cap](#)

Description

Tynor Knee Cap with Rigid Hinge has effective design that offers compression and provides lateral support to the injured tendons/ligaments of the knee while allowing normal movement of the knee. Generally used in case of postoperative knee, mild strain, sprain, and early stage of osteoarthritis. Woven on the state of the art circular looms and double layered with cotton inside which ensures comfort in all weather and nylon on the outside ensures durability and colorfastness. Anti tourniquet strapping provides better grip and ensures no blood constriction. Use this product under the guidance of a qualified doctor. Discontinue use of the product in case of impaired sensation, impaired blood flow and allergic rash or itching. Misuse or improper use of the device can lead to adverse effects and decreased effectiveness. Some product wash care instructions are hand wash with mild detergent, do not dry clean, iron and bleach. The fulcrum of the hinge should be aligned to the center of the knee. Available in five sizes - small, medium, large, XL and XXL.
