

Tynor Neoprene Hinged Knee Support - XXL (Grey)

SKU: MP26037

Categories: [Knee Support](#)

Description

Tynor neoprene hinged knee support is a versatile knee support which offers the advantage of controlled compression around the knee and the rigid side support of a splint. It allows normal flexion and free movement of the knee joint. Neoprene layer bonded with nylon fabric on both sides : Four way stretch ability gives a controlled and comfortable compression in various positions of the knee. Ensures longer life, appealing aesthetics with color fastness, better body heat retention, faster pain relief and healing. Anatomical shape : Relieves patellar pressure, holds the patella in position and can be used for patello-femoral diseases. Bi-axial heavy duty aluminum hinge : Mimics the natural knee joint, ensures full weight bearing and allows free flexion movement. Ergonomic design : Anti tourniquet effect ensures no constriction to blood flow, better grip of the product to the body, anatomic construction, better functionality and snug fit.
