

Tynor Neoprene Knee Wrap Hinged - Cl

SKU: MP26062

Categories: [Knee Support](#)

Description

Knee Wrap Hinged (Neoprene) is a versatile knee support which offers the advantage of controlled compression around the knee and the rigid side support of a splint. It allows normal flexion and free movement of the knee joint. It gives support to weak knees and helps in Osteoarthritis ,Chondromalacia, Chronic laxity or instability , Patellar dislocation, fracture or stabilization , Muscular sprains and strains of the area and Prophylaxis during sports activities. It can be used as Post cast care and Post Operative care .The body is made out of three layered Neoprene foam bonded fabric, with a four way stretch, the outer layers are made out of strong nylon fabric which ensures a long life, good aesthetics and color fastness. It is ergonomically shaped to provide good grip around the knee anatomy and ensures no bunching on knee bending. Hook and loop closures provide close contoured fitting of the brace around the knee and a control on the degree of compression apart from easy application and removal.Use it under strict guidance of a qualified doctor.Discontinue use and seek guidance of a qualified doctor, in case of Impaired sensation ,Impaired blood flow, Pain increases or persists . Misuse or improper use of the device can lead to adverse effects and decreased effectiveness. Keep it out of reach of Children. The product should be removed while sleeping. Some Wash Care Instructions are Close hook loop fasteners before washing .Hand wash with mild detergent and water below 30°C. Do not wring , Dry clean , Iron and Bleach. Available in Six different sizes - Small , Medium , large ,XL , XXL , XXXL.
