

Vissco Cervical Collar with Chin Support Regular - XXL

SKU: MP26107

Categories: [Cervical Collar](#)

Description

Vissco Cervical Collar soft with support is recommended where a partial or controlled immobilization of the cervical region is required. Also, used in postoperative care, cervical neuralgia, cervical spondylitis, cervical disc disease, torticollis and neck sprain/stiff neck and other ortho/neuro conditions where support or immobilization to the cervical region is required. It is also used for supporting, immobilizing or adjusting the neck in the required position. Made of durable high-density polyurethane foam, with very thick LDPE sheet for uniform support and cushioning. It is covered with fawn colored, hypoallergenic cotton stockinet. Rust proof eyelets improve ventilation and patient comfort. Long hook-loop tape ensures snug fitting around the neck and easy application. Use this product under the strict guidance of a qualified doctor. Discontinue use and seek the guidance of a qualified doctor, in case allergy, rash or itching develops or cervical pain increases or persists. Available in four sizes small, medium, large and XL.
