

# DUO ECG + Digital Stethoscope

SKU: MP28206

Categories: [Health Innovations](#), [Hospital use innovations](#), [Stethoscopes](#)

## Short Description:

DUO captures both heart and lung sounds and ECG providing the fastest and most comprehensive view of your patients' cardiopulmonary function.

## Description

DUO captures both heart and lung sounds and ECG providing the fastest and most comprehensive view of your patients' cardiopulmonary function. A screening device for any environment. DUO provides quick, accurate, and user-friendly screenings at the point of care, through a telemedicine exam, or from your patient's home.

For EMS & Critical Care

ECG and amplified auscultation helps you collect more information at the point of care to make a quick assessment.

For COVID-19 & Infection Control

For COVID-19 & Infection Control

Stream sounds directly to your Bluetooth devices for contactless screening.

For Hearing Loss

For Hearing Loss

Eko gives clinicians amplified sound and Bluetooth connectivity with most hearing aids and listening devices.

width="1/3"]vc\_column\_text]

For Telemedicine

Eko adds amplified auscultation and ECG monitoring to virtual care, helping you collect more information during telemedicine assessments.
