

3M™ Tegaderm™ HP+Pad Dressing

SKU: MP33117

Categories: [Medicated Wound Dressings](#)

Description

Product description: Bacterial and Viral barrier to prevent surgical site infections. Waterproof barrier which allows patients to bathe or shower without removing dressing. Unique, absorbent, non-adherent pad won't stick to the wound, allowing moist wound healing with less pain and trauma. Breathable film allows skin to function normally with good exchange of moisture vapor and oxygen
