

Comprezon Varicose Vein Stockings Class 2 Below Knee- 1 pair (LARGE)

SKU: MP33486

Categories: [Large](#)

Description

Product description: Boost flow of blood back from legs to heart. Prevents pooling of blood in legs which is the main cause of varicose veins. Comprezon does this by applying graduated compression, that is, applying high pressure at the ankle, medium pressure at the knee and minimum pressure at the thigh so that blood can be forced back up the leg. Ankle circumference in cm: Small- 19-23, Medium- 23-26 ,Large- 26-29 ,XLarge-29-31 ,XXLarge- 31-34.
