

# HASSAN TROCAR

SKU: MP35597

Categories: [Endoscopic Surgical Systems](#)

## Description

The bladeless optical trocar offers outstanding visualization, allowing a surgeon to monitor the initial entry process through the abdomen via the laparoscope.

Features:

Durable seal system allows for easier instrument exchange<sup>1</sup> Proprietary ribbed cannula provides better fixation<sup>2</sup> and enhanced port security from start to finish when compared to the Applied Kii 12 mm trocar Unique “dolphin nose” tip facilitates smoother insertion for easier trocar placement<sup>2</sup>
