

# Philips Comfort Gel Full Face Mask

SKU: MP36442

Categories: [Masks](#)

## Description

Comfort gel blue full is an excellent advancement for CPAP users who need a full-face Cpap mask. A comfortable forehead cushion and enhanced stability selector combine with our popular blue gel replaceable cushion to create a high level of comfort and stability. The unique sure seal technology (SST) provides a membrane-thin layer over the gel cushion to closely follow facial contours of both men and women, allowing more wearers to quickly achieve the comfortable seal they need. Works together with the thin, form-fitting outer silicone membrane to create an effective, self-adjusting seal. Not only does our blue gel Full Face Cpap Mask provide extra stability, but it is also thinner and lighter than ever before.
