

Philips Wisp Nasal Mask

SKU: MP36443

Categories: [Masks](#)

Description

Soft and comfortable for a restful night's sleep Wisp provides patients with a better quality of sleep over the leading pillows and nasal masks thanks to its soft and comfortable design. Compact design delivers a natural fit The compact design comfortably fits more than 98% of patients. Wisp offers the performance of a nasal mask with the style of a nasal pillows mask. Open field of vision so patients can enjoy normal activities Thanks to the open field of vision, your patients can read, watch TV, and even wear glasses before they go to sleep. Click fit headgear for easy adjustment The Wisp headgear is easy to adjust with simple clips. Contemporary frame options to fit your patient's style Choose from an attractive clear frame and a reversible fabric frame — one side is soft, cushioned suedette, the other is silky sateen. Minimal parts - easy to use and clean Wisp is designed with few parts, making it easy to use and clean. Create the right solution for your patients by choosing from the three cushion sizes included in the package. Tip-of-the-nose cushion design forms exceptional seal Your patients experience minimal contact and an exceptional seal thanks to our patented "tip-of-the-nose" cushion design and auto seal groove. Magnetic clip accessory for enhanced ease of use The easy-to-use Wisp magnetic headgear clip is an accessory part that can be retrofitted to existing Wisp masks. It can replace the standard headgear clip to enhance ease of use for patients with limited dexterity.
