

BMC Humidifier for CPAP and BiPAP

SKU: MP36989

Categories: [Cpap and Bipap](#)

Description

The BMC Humidifier is an essential accessory for the CPAP and BIPAP machines. It is widely used to humidify the air intake for the patient for a pleasurable respiratory experience. Comfortable to adjust the humidification levels in 5 steps, the accessory is equipped with water intake capability of 350mL, which is sufficient for a whole night of OSA therapy.
