

# Affirm/Steroloc II

SKU: MP41017

Categories: [Digital Mammogram](#)

## Short Description:

- A fully integrated solution optimized with Tomosynthesis that minimizes procedure steps and simplifies workflow
- Intuitive user interface acquisition workstation for enhanced ease of use
- Advanced ergonomic and lightweight design for quick and easy transition from diagnostic to interventional procedures under the same imaging modality
- 70 cm SID for easier positioning of patients and installation of biopsy devices
- A unique, 10° angled biopsy approach for an unobstructed view of the lesions while
- maintaining simple Cartesian targeting methods in all biopsy modes
- Compatibility with a wide array of biopsy devices for greater convenience
- A complete solution for screening, diagnostic and interventional procedure
- Should use Needle Guidance Cartesian Coordinate
- System with an Accuracy of +/-1 mm
- Biopsy system with Guidance Motorized Movements X- and Y-Axis & Z-Axis: Manual

## Description

### FEATURES

- A fully integrated solution optimized with Tomosynthesis that minimizes procedure steps and simplifies workflow
- Intuitive user interface acquisition workstation for enhanced ease of use
- Advanced ergonomic and lightweight design for quick and easy transition from diagnostic to interventional procedures under the same imaging modality
- 70 cm SID for easier positioning of patients and installation of biopsy devices
- A unique, 10° angled biopsy approach for an unobstructed view of the lesions while maintaining simple Cartesian targeting methods in all biopsy modes
- Compatibility with a wide array of biopsy devices for greater convenience
- A complete solution for screening, diagnostic and interventional procedure
- Should use Needle Guidance Cartesian Coordinate
- System with an Accuracy of +/-1 mm
