

CureSight

SKU: MP47799

Categories: [Health Innovations](#)

Short Description:

Amblyopia (Lazy-eye) affects 3% of all population and puts the patients at risk for eventual vision loss. Gold Standard treatment for lazy eye is placing a patch over the strong eye – an archaic solution which suffers from very low compliance. With the CureSight™ binocular treatment, children develop stereoscopic vision, which is difficult to be achieved with the monocular nature of the traditional patching treatment. [Learn More](#)
