

ECG MACHINE SINGLE CHANNEL ECG-100G

SKU: MP9977

Categories: [3 - Lead devices](#)

Short Description:

- ECG100G is a kind of single channel electrocardiograph, which features in printing ECG waveform by thermal printing system, prompting for "Lead off" or "Lack of paper", multi-language interface, recording ECG waveform in AUTO/Manual mode, convenient to operate.
- Adopt digital signal processing technology and get high-quality ECG waveform via power frequency filter, baseline filter and EMG filter of ECG signal.

Description

Product Details:

Filters Type	Ac Filter
Number of Channels	1 Channel
Brand	Niscomed
Model	ECG-100G
Machine Type	Portable
Operating Mode	Manual

- ECG100G is a kind of single channel electrocardiograph, which features in printing ECG waveform by thermal printing system, prompting for "Lead off" or "Lack of paper", multi-language interface, recording ECG waveform in AUTO/Manual mode, convenient to operate.
- Adopt digital signal processing technology and get high-quality ECG waveform via power frequency filter, baseline filter and EMG filter of ECG signal.
- Adopt high-resolution thermal printing system(8 dot/mm), no need for any adjustments.
- Recording frequency: up to 150Hz.
- Real-time and continuously record clear and accurate ECG waveform and annotation character(including lead mark, sensitivity, paper speed and filter state, etc.).
- In AUTO mode, finish recording by pressing the button once, which improves work efficiency.

- Multi-language (Chinese, English, French, Italian, German, Spanish, Turkish, Russian and Kazakh) interface and report.
- In optimal DC state, up to 7-hour standby time, continuous print up to 4-hour, record up to 150 pieces of ECG waveform.
