Summary

As a Frontend Developer I am responsible for creating visually appealing and user-friendly web applications. Working closely with design teams to translate design mockups into interactive web pages using HTML, CSS, JavaScript and React. I ensure that the application is responsive and works well across different devices and browsers. I will also collaborate with backend developers to integrate frontend components with backend logic.

Skills

HTML | CSS | JavaScript | Bootstrap | React | Node | REST API | Linux | Git | GitHub | Material UI | Tailwind CSS | Frontend Development | Responsive Web Design | Web Development | Debugging | Version Control | Frontend Libraries | Problem Solving | Bundlers | DOM Manipulation | AJAX | CSS Preprocessors | Figma | Wireframes | Full Stack

Experience

TCR Innovation | Mumbai, Maharashtra, IN | Frontend Developer Intern   **July 22 - Sept 22**

- Developed user interfaces for web applications using HTML, CSS and JavaScript.
- Tested functionality of front end code across different browsers and platforms.
- Implemented responsive design techniques to ensure websites are optimized for mobile devices.
- Collaborated with back-end developers and designers to create seamless website experiences.
- Worked closely with UX and UI Designers to implement their visual designs into functional code.

Projects

- **MEDITATION CLOCK**: The Meditation Clock app features customizable timers and serene sounds for enhanced meditation. Its minimalist design and user-friendly interface promote relaxation and mindfulness, perfect for daily practice. Link
- **CALCULATOR**: The Calculator app provides basic and scientific calculation functions in a user-friendly interface. It offers versatility and convenience for various mathematical needs, making it a handy tool for quick calculations. Link
- **ZOMATO CLONE**: The Zomato clone app allows users to explore local restaurants, view menus, read reviews, and place orders. It offers a seamless experience for food enthusiasts, connecting them with diverse culinary options. Link
- **DRUM MACHINE**: The Drum Machine app is a virtual drum kit where users can create beats and rhythms. With a variety of drum sounds and an intuitive interface, it offers a fun and interactive music-making experience. Link
- **BOOK MY SEAT**: The Book My Seat app facilitates easy seat reservations for events, movies and shows. Its intuitive design ensures a smooth booking experience, making it convenient for users to secure their seats. Link

Education

Balasore College of Engineering & Technology, Balasore, Odisha, India   **2020 - 2024**

- **Computer Science and Engineering**   **CGPA: 8.24**

Certifications

- **Responsive Web Design**   **June 22**
- **JavaScript Algorithms and Data Structures**   **May 23**
- **Front End Development Libraries**   **Dec 23**
- **Learn JavaScript Basics**   **Feb 23**
- **JavaScript Under The Hood**   **Feb 23**
- **Advanced Theoretical JavaScript**   **March 23**
